- 3% of clients are Transgender-male to female

653 clients served

13,477 client encounters

Almost 50% of clients are at or below the Federal Poverty Level

**HIV/STI TESTING & OUTREACH**

In the US, there are around 36,000 new HIV infections every year. Just last year, nearly 200 people in Kansas City acquired HIV and that number would have been much higher were it not for the GSP outreach programs.

- 961 total individuals tested
  - 11.2% specimens tested positive for STIs
  - 0.8% tested positive for HIV

Community outreach and education for 19,800 people

GSP distributed 46,350 condoms in 2016!
